

Simple, yet revolutionary control

This touchscreen wireless multimedia remote control offers a simple Activity-Based interface to control the home entertainment experience. With its simple on-screen setup wizard, the remote can be setup in a few simple steps, ready to go!

Control all A/V devices: past, present and future

- Extensive infrared code database for any device or brand
- Intuitive shortcuts for effortless control of A/V devices
- Integrated WiFi connectivity for wireless networking
- Attractive and easy-to-read touchscreen color LCD display

Control all media content with a few simple clicks

- Control of media playback from PC to TV or audio set
- Extra convenience through on-device photo preview
- Multiple commands blended into one-touch control
- Auto-update of personalized TV listings from the Internet

Quick and easy set-up

- Quick installation through an intelligent set-up wizard
- Convenient IR learning from another remote by pointing to it
- Additional functionality through future software upgrades

PHILIPS

Technical specifications

Picture/Display

- **Touch-sensitive screen:** Touch Screen
- **Backlight**
- **Display backlight:** White
- **Display colors:** 65,536
- **Diagonal screen size (inch):** 3.5 in
- **Resolution:** 320 x 240 pixels

Infrared Capabilities

- **Universal IR code database**
- **Learning IR codes**
- **Learning frequency range:** 20 kHz to 70 kHz and 455 kHz
- **Number of brands in database:** Over 1100

Connectivity

- **Built-in wireless technology:** 802.11b
- **Front/side connections:** USB
- **Internet connection options:** Upgradeable
- **Remote control extender:** via WiFi

Convenience

- **Ease of Installation:** Wizard guided installation
- **Ease of Use:** Graphical User Interface
- **Language available: UI:** English
- **Front Controls:** Volume up, Volume down, Mute, Channel Up, Channel Down, Cursor up/down/left/right, OK, Home, Back, Page
- Automatic power off
- Battery low indication
- Clock with calendar
- Battery charging indication

Multimedia Applications

- **Playback Formats:** MP3, m3u

Still Picture Playback

- **Picture compression format:** BMP, GIF, JPEG

Loudspeakers

- **Built-in speakers:** 1

Software

- **Philips Media Manager:** UPnP multimedia content server

Power

- **Battery type:** Li-Polymer
- **On/Off switch**
- **Mains power:** AC 220-240 V, 60 Hz
- **Number of included adapters:** 1
- **Battery capacity:** 1700 mAh
- **Charging time:** approximately 3 hours hr

Dimensions

- **Product dimensions (WxDxH):** 149 x 101 x 24 mm
- **Temperature Range (Operation):** +5° C to +45° C
- **Box dimensions (W x H x D):** 228 x 284 x 78 mm

Accessories

- **Docking Station:** with 3.5 mm audio line-out
- **USB cable**
- **Printed User Guide:** Eng/Fr/Esp/Ger/Ned
- **User Guide on CD-ROM**
- **Quick start guide:** UK/F/D/NL/E/JP/GR/S/N/DK/FIN
- **Guarantee booklet:** Global version
- **Warranty Card**

Product highlights

Integrated WiFi

WiFi networking, also known as IEEE 802.11 uses radio frequency signals to communicate in a similar fashion as wired computer networks. It uses TCP/IP networking protocols for the basic communication.

Universal IR code database

A universal IR code database refers to a library of infrared codes built-in to a particular remote. This feature allows a remote to control your equipment without needing to learn individual signals. Select the correct infrared code sets in the database for the devices you want to control, to enable control of virtually every audio/video system element on the market today – regardless of model or brand.

Color LCD display

Color Liquid Crystal Display with touch screen input ensures better readability and the capability to visualize colour buttons and backgrounds. Easy selection of buttons and commands is possible using the touch screen.

Activity based user interface

Instead of operating your components one by one, activity based control blends the most commonly used functions into activities such as "Watch DVD" or "Listen to CD". The device autonomously matches the user interface to the activity at hand.

One-touch convenience

One-touch convenience allows you to perform multiple commands with one press of a button via a macro. A macro combines a string of pre-programmed commands under one single button. Therefore, it simply takes one button press to execute a series of functions.
